

Seasonal Changes - Spring and Summer

Key vocabulary

seasons	in the UK there are four seasons each year; spring, summer, autumn
weather	includes the temperature outside, wind direction and strength, as well
daylight	when it is light outside from the sun, the amount of daylight changes
spring	the weather starts to get warmer, leaves begin to grow on trees and some trees may blossom (have flowers). Plants begin to grow and some baby animals are born; such as lambs. Daylight also begins to get longer
summer	The weather gets hotter, the daylight is long and the night is short,

Why do the clocks change?

In the UK, we set the clocks **ahead an hour in spring**, and **back an hour in autumn**. The UK is one of several countries in the to change the clocks according to the seasons.
